

Consistent compression. Superior seal.

Ethicon Linear Cutter*

Consistent compression

- Innovative 3-D staple technology is designed to produce uniform tissue compression within the staple line

Reduced risk of leaks

- The Ethicon Linear Cutter helps reduce the risk of staple line leakage compared to the Autosuture DST Series GIA (GIA8038S)¹

Superior hemostasis

- The Ethicon Linear Cutter delivers superior hemostasis compared to Autosuture DST Series GIA²

Applicable specialties

- Colorectal
- General
- Gastric
- Thoracic

* Ethicon Endo-Surgery™ Linear Cutter

¹ Benchtop testing of luminal leak pressure in an excised animal tissue model. Hemostasis assessment based on visual inspection of vessels after transection in an animate porcine model.

² Assessment based on visual inspection of vessels after transection in an animate porcine model compared to the Autosuture DST Series GIA (GIA8038S) and Frankenmann Chex Linear Cutter (LC80B).

Product overview

- Innovative 3-D staple design with angled, parallel staple legs to deliver consistent compression
- Proximal preload mechanism and distal tissue stop help ensure consistent staple form
- Versatility of selectable staple height delivers three closed staple heights
- Two lengths available to accommodate a range of procedure applications
- Intermediate locking position allows the surgeon to manipulate tissue without separating the device
