

LigaSure™ 5 mm Blunt Tip Portfolio

Open and Laparoscopic Sealers/Dividers

Trusted Performance. Enhanced Design.

Based on surgeon feedback, we modified the LigaSure™ 5 mm blunt tip devices to enhance their performance and ease of use.¹ Building on the consistency of predecessor devices, the LF1623, LF1637 and LF1644 offer the following improvements:^{1,2}

- Improved blunt dissection
- Better stability
- Greater comfort and reduced fatigue

The redesigned handle is over
25% more compact and lighter³
